Instructor: [Dr. Yi Lu](#)

Prerequisite:

ACMA 320

Required Text:

Loss Models: From Data to Decisions, 2nd Edition, 2004, S.A.Klugman, H.H. Panjer and G.E. Willmot; Publisher: Wiley

References:

ACTEX Study Manual for SOA Exam C and CAS Exam 4, Fall 2005 Edition, by S.A.Broverman, Publisher: ACTEX

Survival Models and Their Estimation, 3rd Edition, by D. London, Publisher: ACTEX

Calendar Description:

Quality of an estimator: unbiasedness, asymptotic unbiasedness, consistency, means squared error, uniform minimum variance. Confidence interval. Tests of hypotheses. Estimation for complete data. Estimation for grouped data. Estimation for modified data: Kaplan-Meier estimator, variances and confidence intervals of the empirical estimator, kernel density estimator. Parameter estimation. Variance of the estimators and confidence intervals. Model selection: graphical procedures, goodness-of-fit test, likelihood ratio test. Interpolation and smoothing. Covers part of the syllabus for Exam C of the Society of Actuaries and Exam 4 of the Casualty Actuarial Society. **Quantitative.**

Outline:

This course covers the fundamentals of actuarial loss models. The topics covered correspond to chapters 9-14 of the required text and the study notes from SOA for Exam C. They include the following:

1. Review of mathematical statistics: Point estimation, interval estimation, tests of hypotheses.
2. Estimation for complete data: Empirical distributions for complete, individual data and grouped data, Study design.
3. Estimation for modified data: Point estimation, Mean, variance, and interval estimation, kernel density models, approximations for large data sets.
4. Parameter estimation: Method of moments and percentile matching, maximum likelihood estimation, variance and interval estimation, Bayesian estimation, estimation for discrete distribution.
5. Model selection: Representations of the data and model, hypothesis tests, two types of selection criteria.
6. Risk measures/ Value at risk, conditional tail expectation.

Grading Scheme:

Assignments – 10%

Midterm 1 – 35%

Midterm 2 – 35%

Project – 20% (Presentation 5%, Report 15%)

Grading is subject to change.

Students should be aware that they have certain rights to confidentiality concerning the return of course papers and the posting of marks. Please pay careful attention to the options discussed in class at the beginning of the semester. Students are reminded that Academic Honesty is a cornerstone of the acquisition of knowledge. Scholarly integrity is required of all members of the University. Please consult the General Guidelines of the calendar for more details.
