

SPRING 2015 - STAT 854 G100

BIOMETRICS: METHODS IN BIOMEDICAL STUDIES (4)

Class Number: 4826 Delivery Method: In Person

COURSE TIMES + LOCATION:

Tu, Th 2:30 PM – 4:20 PM

AQ 5006, Burnaby

INSTRUCTOR:

Joan Hu

joanh@sfu.ca

778-782-6714

Office: SCK-10555

PREREQUISITES:

Prerequisite: : STAT 450 or permission of the instructor.

Description

CALENDAR DESCRIPTION:

Principles, methods and applications of basic statistical approaches in biomedical studies are presented. Topics include introduction to epidemiology; design of cohort and case-control studies; experimental versus observational data, and cross-sectional versus longitudinal studies; issues of confounding, causation and missing data; design of clinical trials; data monitoring and interim analysis.

COURSE DETAILS:

Course Outline:

1. History, concepts and terminology of epidemiology.
2. Measures of disease occurrence and association.
3. Design of medical studies: cohort and case-control studies; controlled clinical experiments.
4. Models and analysis in prospective and retrospective studies.
5. Confounding, causal diagrams, and missing data.
6. Clinical trial design principles: bias control, random error control, randomization, blocking, masking
7. Types of clinical trials: phases of trial, translational, dose-finding, cross-over, safety and efficacy, and comparative trials.
8. Study monitoring: sequential methods.

Grading

Assignments	40%
Projects	50%
Class Participation	10%

NOTES:

All grading is subject to change.

Materials

RECOMMENDED READING:

Fundamentals of Clinical Trials, L M Friedman, C D Furberg, and D L DeMets, Springer-Verlag, New York.

Clinical Trials: A Methodologic Perspective, Second Edition, Piantadosi S., New York, NY: John Wiley & Sons.

Epidemiologic Methods: Studying the Occurrence of Illness. T D Koepsell and N S Weiss, Oxford University Press.

GRADUATE STUDIES NOTES:

Important dates and deadlines for graduate students are found here: http://www.sfu.ca/dean-gradstudies/current/important_dates/guidelines.html. The deadline to drop a course with a 100% refund is the end of week 2. The deadline to drop with no notation on your transcript is the end of week 3.

REGISTRAR NOTES:

SFU's Academic Integrity web site <http://students.sfu.ca/academicintegrity.html> is filled with information on what is meant by academic dishonesty, where you can find resources to help with your studies and the consequences of cheating. Check out the site for more information and videos that help explain the issues in plain English.

Each student is responsible for his or her conduct as it affects the University community. Academic dishonesty, in whatever form, is ultimately destructive of the values of the University. Furthermore, it is unfair and discouraging to the majority of students who pursue their studies honestly. Scholarly integrity is required of all members of the University. <http://www.sfu.ca/policies/gazette/student/s10-01.html>

ACADEMIC INTEGRITY: YOUR WORK, YOUR SUCCESS
